THE FLOWERS COLLEGE

REPORT.

*To the President and Members of the Senate of the State of
Louisiana, in General Assembly convened :*

The committee on the State Penitentiary beg leave to report, that in conjunction with a special committee of the House, appointed for that purpose, they have carefully examined the accounts and vouchers of the Lessees of the Penitentiary, embracing the term of their administration from the commencement of their lease, on the 1st of April, 1857, to the 31st of December, 1860, and they have found them entirely correct and satisfactory, except that the Lessees have charged to the expense account, interest on the sums borrowed to carry on the Penitentiary and the cost of certain structures and improvements made by them, neither of which is authorized by law. Your committee is clearly of the opinion that these charges ought to be recognized and allowed by the State, as these improvements seem to have been absolutely necessary, and the borrowing of the money to carry on the operations of the partnership, has prevented the necessity of forcing the products of the Penitentiary into market at a ruinous sacrifice, and the State and the Lessees have been mutually benefitted thereby.

The current account, of which a synoptical statement is herewith presented, shows an indebtedness on the part of the State to the Lessees, on the 31st of December, 1860, of \$45,126 05, which is represented by the machinery, buildings and other improvements, etc., placed and erected in the Penitentiary by the said Lessees.

The Lessees propose to terminate their partnership with the State on terms which appear to your committee equitable and advantageous to the State. They propose to have their lease extended and continued, under the supervision and control of the State, as at present, to the 1st of April, 1861—that they may be relieved from the requirement of law to pay annually into the Treasury one-half of the profits arising from the Penitentiary—and that in consideration of said extension of the lease of said relinquishment, the said Lessees at the termination of their lease, shall deliver to the State, free of all cost or charge whatever, the cotton and woollen machinery, purchased,

or which may be hereafter purchased by the Lessees for the Institution, as well as the tools belonging to the various workshops that are on hand or that may be hereafter purchased; that they shall also deliver to the State, without any cost or charge whatever, all the buildings and works that have been or may hereafter be erected, or any improvements that have been or may hereafter be made by them, at the Penitentiary; and that all accounts which the said lessees may have against the State on account of their administration of the Penitentiary, shall be considered and deemed paid, and that the State shall also be released from any obligation to purchase from the Lessees any part of the stock of any kind whatever that they may have on hand at the termination of their lease.

Your committee believing this proposition to be entirely equitable and manifestly advantageous to the State, report herewith a bill in conformity thereto, and recommend its passage by the General Assembly.

Your committee cannot close this report without expressing their high appreciation of the admirable discipline and internal management of the Penitentiary during the time it has been under the administration of the present Lessees. It would be difficult to bring the discipline to greater perfection, or to be more considerate of the comfort and well being of the convicts, than what is witnessed in our Penitentiary at the present time.

Respectfully submitted,

A. L. TUCKER,
Chairman of the Committee.

Statement of Goods Sold from 1st April, 1857, to 31st December, 1860, and the Amount of Sales.

From.	To.	Number Bales Goods.	Number of Yards.	Number Bales Batting.	Amount of Sales.
